

Year 5 Maths Medium Term Plan

Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
<p>Place Value Read Roman numerals to 1000 (M) and recognise years written in Roman numerals</p> <p>Read and write numbers to 1 000 000</p> <p>Determine the value of each digit in numbers to 1 000 000</p> <p>Count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000</p> <p>Compose and decompose numbers to 1 000 000 using standard and nonstandard partitioning</p> <p>Compare and order numbers to 1 000 000</p> <p>Round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000</p> <p>Solve number problems and practical problems that involve all of the above</p>	<p>Multiplication & Division Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</p> <p>Establish whether a number up to 100 is prime and recall prime numbers up to 19</p> <p>Recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3)</p> <p>Secure fluency in multiplication table facts, and corresponding division facts, through continued practice.</p> <p>Multiply and divide whole numbers by 10, 100 and 1000, understand this is equivalent to making a number 10 or 100 times the size, or 1 tenth or 1 hundredth times the size.</p> <p>Multiply and divide numbers mentally drawing upon known facts</p> <p>Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 1 tenth or 1 hundredth).</p>	<p>Multiplication & Division Multiply numbers up to 4 digits by a one-digit number using a formal written method</p> <p>Multiply numbers up to 4 digits by a two-digit number using long multiplication</p> <p>Divide numbers up to 4 digits by a one-digit number using the formal written method of short division</p> <p>Interpret remainders appropriately for the context</p> <p>Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign</p> <p>Fractions Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams</p> <p>Find non-unit fractions of quantities</p>	<p>Decimals & Percentages Recall decimal fraction equivalents for a half, quarter, fifth and tenth, and for multiples of proper fractions</p> <p>Compose and decompose numbers with up to 3 decimal places using standard and nonstandard partitioning</p> <p>Recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal</p> <p>Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those fractions with a denominator of a multiple of 10 or 25</p> <p>Read and write decimal numbers as fractions [for example, $0.71 = \frac{71}{100}$]</p>	<p>Decimals Read and write numbers with up to three decimal places</p> <p>Recognise the place value of each digit in numbers with up to 2 decimal places</p> <p>Add and subtract numbers with up to 3 decimal places</p> <p>Multiply decimal numbers by 10, 100 and 1000</p> <p>Divide numbers involving decimals by 10, 100 and 1000</p> <p>Reason about the location of any number with up to 2 decimals places in the linear number system, including identifying the previous and next multiple of 1 and 0.1</p> <p>Round decimals with two decimal places to the nearest whole number</p> <p>Round decimals with two decimal places to one decimal place.</p> <p>Compare and order numbers with up to three decimal places</p>	<p>Properties of Shape Know that angles are measured in degrees</p> <p>Estimate acute, obtuse and reflex angles</p> <p>Compare acute, obtuse and reflex angles</p> <p>Draw given angles, and measure them in degrees (o)</p> <p>Identify angles at a point and one whole turn (total 360o)</p> <p>Identify angles at a point on a straight line and $\frac{1}{2}$ a turn (total 180o)</p> <p>Identify other multiples of 90o</p> <p>Use the properties of rectangles to deduce related facts and find missing lengths and angles</p> <p>Distinguish between regular and irregular polygons based on reasoning about equal sides and angles</p>

Year 5 Maths Medium Term Plan

<p>Addition & Subtraction Add and subtract numbers mentally with increasingly large numbers</p> <p>Add and subtract whole numbers with more than 4 digits using columnar methods</p> <p>Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy</p> <p>Solve addition and subtraction multi-step problems in contexts, deciding which methods to use and why</p> <p>Multiplication & Division</p> <p>Identify multiples Identify factors</p> <p>Find all factors pairs of a number and common factors of two numbers Express a given number as a product of 2 or 3 factors.</p>	<p>Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes</p> <p>Fractions Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths</p> <p>Add and subtract fractions with denominators that are multiples of the same number</p> <p>Add and subtract improper and mixed fractions with the same denominator, including bridging whole numbers.</p> <p>Reason about the location of mixed numbers in the linear number system.</p> <p>Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number [for example, $2/5 + 4/5 = 6/5 = 1 \frac{1}{5}$]</p> <p>Compare and order fractions whose denominators are all multiples of the same number</p>	<p>Decimals & Percentages Know that 10 tenths are equivalent to 1 one, and that 1 is 10 times the size of 0.1.</p> <p>Know that 100 hundredths are equivalent to 1 one, and that 1 is 100 times the size of 0.01.</p> <p>Know that 10 hundredths are equivalent to 1 tenth, and that 0.1 is 10 times the size of 0.01.</p>	<p>Perimeter & Area Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres</p> <p>Calculate the area of rectangles (including squares) and including standard units, square centimetres (cm²) and square metres (m²)</p> <p>Compare the area of rectangles (including squares)</p> <p>Estimate the area of irregular shapes</p> <p>Statistics Solve comparison, sum and difference problems using information presented in a line graph</p> <p>Complete, read and interpret information in tables, including timetables</p> <p>Application of Multiplication & Division Strategies</p>	<p>Solve problems involving numbers up to three decimal places</p> <p>Negative Numbers Interpret negative numbers in context</p> <p>Count forwards and backwards with positive and negative whole numbers, including through zero</p> <p>Converting Units Convert between different units of metric measure (for example, kilometre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)</p> <p>Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints</p> <p>Solve problems involving converting between units of time</p> <p>Use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling</p>	<p>Identify 3-D shapes, including cubes and other cuboids, from 2-D representations</p> <p>Position & Direction Identify and describe the position of a shape following a translation, using the appropriate language, and know that the shape has not changed</p> <p>Represent the position of a shape following a translation, using the appropriate language, and know that the shape has not changed</p> <p>Identify and describe the position of a shape following a reflection, using the appropriate language, and know that the shape has not changed</p> <p>Represent the position of a shape following a reflection, using the appropriate language, and know that the shape has not changed</p> <p>Volume Estimate volume [for example, using 1 cm³ blocks to build cuboids (including cubes)] and capacity [for example, using water]</p>
